

_Aircraft Charter Experts / V-One at a glance

Since the early 1990's our business has successfully delivered a comprehensive range of air charter services to all types of industry sectors across the globe.

We have enjoyed particular success in the demanding automotive sector where we work with many household names including:

_What we do

We provide exceptional air charter solutions.

- We present you with a personal air charter service that exceeds your expectations, no matter how complex your requirements.
- We plan each flight in detail, taking care of all your individual needs on the ground and in the air. Our planning doesn't stop here though; we also make detailed contingency plans.
- We offer you immediate global access to the widest range of business jets, airliners, turboprops and helicopter aircraft, 7 days a week, 24 hours a day.
- You will enjoy the superior services of our 24-hour 365-day centre of aviation excellence that plans and monitors all aspects of every air charter flight from take-off to touchdown. You have a single contact point to make communication simple and effective.

_Flight Management

We have a proven 'project management' approach for any assignment undertaken on behalf of our customers, regardless of size or complexity. Our attitude to your project ensures that your aims, objectives and timelines are met and hopefully exceeded.

_Choose to meet V-One

Since we began working with businesses in the conference and incentive travel arena, it has become apparent that V-One can deliver some genuine benefits to you from the very first pitch for business through to flight project completion.
